District Mourns Loss Of Neighbor

The body of Earl Wright, 39, of Paxson district, was removed from his ski-equipped Luscombe aircraft Wednesday, Feb. 12, and taken to Athabasca.

Wright had been missing since 4:35 p.m. Monday, Feb. 10. He, as federal returning officer, was returning home after visiting election officers at several points between Athabasca and Fort McMurray.

Last April, a passenger in the Breckenridge plane from Edmonton, he spotted the lost child Gladys Pushor of Meanook.

A well-known figure in public affairs, he was known to all his neighbors as a sincere friend. He served as Paxson postmaster and telephone operator. He also took an active part in school and municipal affairs, not only in his office as councillor but also as a private citizen. He was a member of the Masonic Lodge, the Canadian Legion and Chamber of Commerce.

He leaves his wife Helen, daughters Kathleen and Jeanine, four brothers, two sisters and his parents of Abbotsford, B.C.

Sympathy Expressed To Wright Family

SPRUCE VALLEY—Mike Kochan has been canvassing this district to raise a purse to present to Mrs. Earl Wright and her daughters.

The purse would assist payment of funeral expenses for the late Earl Wright, returning officer for Athabasca district, who was killed when his plane crashed as he was returning home from visits to election officers.

A spokesman for this district said the purse was one way the district hoped to express its sympathy on the tragic loss of the well known Wright. Wright, the spokesman said, took great interest in district projects.

Grassland Plans Curling Rink

GRASSLAND—Present expectations here are that facilities for curling will be available here next winter.

Erection of a curling rink was discussed by Grassland Community League in a Sunday meeting in the Community hall.

It was unanimously decided to proceed with the project, the rink to be built on league property to the south of the hall.

Frains

F. Hewko of Sarrail has finished wiring the Shyian and Kolmatycki home.

Andy Kowalyk, Johnny Hussynec and Harry Kornak have left to work in British Columbia.

A number of residents attended the Grassland ice carnival and the dance following.

The Charron bus has been hauling the students to Grassland when Frains bus broke down. John Murrowchuk also helped ed with his car.

Visitors to Lac la Biche recently were Mrs. Wm. Kowalyk, Mrs. D. Shwetz, Mrs. D. Kolach, Dave Pusiarski and Ray Kolach.

John Shyian made a business trip to Edmonton recently.

Visitors at the Kolack home durthe weekend were Miss N. Gauntiniuk and Mike and Billy Letwin all of Hollow Lake.

Mrs. A. Hrycun fell and broke her ankle recently and is now in St. Catherine's hospital in Lac la Biche.

WHEN MRS. Antonette Farolo, 26, left her home in Italy, she believed she would be in time to have her baby in Montreal. She was wrong. The birth took place aboard a luxury liner crossing the Atlantic. She has no idea about the infant's legal status . . . "but I'll raise him as a good Canadian." Her husband is awaiting a visa to enter Canada.

St. Laurent Declines To Seek Nomination

QUEBEC — Former prime minister Louis St. Laurent has declined to seek nomination in the constituency of Quebec East for the March 31 federal election.

Mr. St. Laurent, 76, has held the seat since 1942. In a statement read by Senator Jean Marie Dessureault, Quebec East Liberal party organizer, Mr. St. Laurent said uncertain health forced him to make the decision. The former prime minister was not present at the brief press conference.

He became prime minister in 1948 and last month was succeded by Lester Pearson as head of the Liberal party.

DEEPLY TOUCHED

"I am deeply touched by the fact that a group of Liberals of Quebec East have offered to propose my candidature in the coming election," Mr. St. Laurent's statement read, "and it is with regret that I feel I must decline their very kind invitation.

"I have been proud to represent Quebec East in the House of Commons for the past 16 years and am most grateful to my electors whom I have endeavored to serve to the best of my ability.

"However, although I have no doubt that the constituency of Quebec East will once more elect a Liberal candidate I believe it would not be fair to the people of that historic constituency for me to accept the nomination when, because of the state of my health, I could not give any guarantee that I would be able to represent them for a four or five-year period.

"I particularly regret having to make this decision in view of my ardent desire to see the Liberal party return to power in the coming election.

HELP PEARSON

"I intend taking a holiday now but I sincerely hope to be able at a later date to accept Mr. Pearson's invitation to take part in the campaign."

L. Pickford Earns Prize In Second

BOYLE — The Larry Pickford rink earned a prize in the Lac la Biche bonspiel, but the Bentler rink, also entered, returned home with three straight losses.

Members of the Pickford rink, in addition to the skip, are Allan Botton, Joe Zaczerski and John Nahayowski. They won a prize in the second event.

Playing with Mr. Bentler were James Patterson, Stan Zaczerski and Rene Marrinier.

Weather Woman Given Farewell

Miss Annette Rudiger, who has been on the staff of the local Weather Bureau since 1953, left Feb. 17 for Rocky Mountain House, where she has been transferred.

A party in her honor was held recently at the home of Mrs. Ernie Shanks. A social evening was spent and Annette was presented with a gift from the ladies present. Lunch was served by the hostess, assisted by Mrs. Ford Scott and Mrs. Molly Bara. Her many friends join in wishing Annette success and happiness in her new position.

Farmers Vote On Advisory Council

LAC LA BICHE—Some 200 farmers of the surrounding district met in the Aurora Theatre Feb. 17, as representatives from the department of municipal affairs presided at a meeting held to ascertain the wishes of the people in regard to forming an advisory council.

A. R. Isbister of the field service branch, chaired the meeting. Colin McGregor, accountant for the department of municipal affairs, in addressing the assembly, gave figures on how moneys from the improvement district was spent, i.e. how the tax rates are arrived at and where the tax is allocated.

The services offered to the farmers by district agriculturists was explained by agriculturist Marcel Cheverette of St. Paul. Road engineer Coulter of St. Paul was also one of the speakers who outlined briefly the work done throughout the area in the past year and what is hoped to be accomplished in the future.

A vote was taken by those present to determine if an advisory council was desired to deal with various governmental activities in the district. It is expected that smaller groups will meet in their respective districts to discuss their needs.

Archie McPhail To Contest Seat Again

Archie McPhail, unsuccessful Social Credit candidate in the June 1957 election, was nominated by acclamation to again contest the Athabasca constituency in the federal election March 31. Some 200 Social Credit supporters met in the Dr. Swift school, Lac la Biche, Feb. 22 to name a standard bearer for the coming election.

Guest speakers for the occasion included Hon. Russel Patrick and Ray Rierson.

Town Profits From Search For Oil

As the search for oil continues in this area, much heavy equipment is seen around the town. Recently, 14 huge trucks of the Cambridge Corporation of Canada spent the night in town before proceeding to Pelican Portage, where they will be drilling under contract to Pacific Petroleum, in an area some 90 miles form Lac la iche.

Local garages and oil stations rallied to fill these monster trucks with sufficient gas to enable them to continue their trip to Pelican Portage and beyond. As the trucks hold in the neighborhood of 132 gallons, the garages had a busy time. The next day Charles Lebas delivered a load of oil to their site 90 miles beyond Pelican Portage.

He said the local group hope to help other delegates and obtain new ideas through exchanging views and experiences.

Sponsors of the clinic are The Canadian Chamber of Commerce, The Alberta Associated Chambers of Commerce and Agriculture and the host community board chamber.

BETTER BUSINESS BUREAU GETS 1450 CALLS ON COUPON BOOKS

Proof that the public is aware of the service of the Better Business Bureau of Edmonton was given shortly after it was set up when 1,450 calls were received on one operation: Coupon Books.

Bureau officials feel the public must have been fully aware of its motto: Before You Invest—Investigate. The "boiler room" operation on coupon books was investigated and the public given all the facts necessary.

The BBB opened its doors for business October 1 last year and average three written complaints per day to their office at 10130-99St., with frequent phone calls to 28348.

Complaints which are legal problems beyond the powers of the bureau should be handled by the complainant's lawyer, and if these services are obtained the BBB tries to do all it can to help.

Complaints cover such subjects as door-to-door sales, bait and switch sales, vacuum cleaners, homework schemes, television service and repairs, dry cleaning, used car sales, real estate sales, furniture sales, magazine sales, farm light plants and water pumps, sewing machines, photography, ladies' wearing apparel, and many others.

While in the field of magazine sales complaints, during November several enquiries were received one afternoon from one district in the city.

The bureau after securing all possible information concerning the salesman, name, description and other pertinent information, made enquiries of the city license office and learned that no such person was licensed with them. They advised that they would have a man proceed to the district at once.

In the meantime, the Edmonton City Police were also informed and upon being given the description, stated that they believed it to be an old customer of theirs. The license office found the man and he appeared in court on a no license charge. In the meantime the police came up with a warrant against him—obtaining money by fraud—present status of the case: enjoying a government holiday—without pay.

The manager of the subscription agency which was being represented has promised to endeavor to do his best to make good on the orders which were paid for to this unauthorized agent, and went on record of expressing his appreciation for the work of the bureau in stopping the operation at such an early date.

The complaints to the bureau represent the disappointments and dissatisfaction which is being experienced by the public and is always the heartbreak in the bureau work.

It is not intended to point a finger at business as a whole, because figures have proved time and again that 97 per cent of business is honest in their intent and will do all in their power to retain a satisfied customer, rather than later try to regain a dissatisfied customer.

Correspondence to the bureau from outside points—rural Alberta, British Columbia, Saskatchewan and as far away as Nova Scotia, has averaged about 12 letters per day. Sometimes this entails cosiderable digging for information, as some of the enquiries are concerning businesses which are no longer in existence, having either closed their doors, or gone into liquidation for some reason or other, but we try to get the information which is within our scope to provide.

Enquiries have averaged approximately 30 per day and these cov-

TAXES STRIKE ANOTHER BLOW

LONDON — Here's what high taxes have done for domestic bliss:

"There was a time when a man took along his secretary on a business trip and said she was his wife," says the official journal of the Income Taxpayers Society.

Nowadays, for income tax expense reasons, he takes his wife and says she's his secretary."

Musician Injured In Highway Accident

WESTLOCK (BUP) — A 25-year-old Stettler man — Darrell Sanderson — who was injured in a weekend highway accident 30 miles north of Edmonton, was reported in good condition in Westlock hospital.

Sanderson suffered a broken thigh, possible internal injuries and exposure after his auto crashed into the side of a small bridge. The wreckage of the car was discovered a short while later by a passing motorist.

WITHOUT a doubt attractive Pat Patterson is one of the busiest radio and TV personalities in Canada. As a writer, composer of music and an announcer for various radio and TV productions, her daily schedule sometimes looks like a busy railway timetable. She can be heard every week on the CBC dominion network in "Pat's Music Room"—a program of records chosen and introduced by her.

LITTLE FAITH IN CHECKUPS

LONDON — Five physicians advised British businessmen that annual physical checkups may be more trouble than they are worth — despite views to the contrary.

"A human being is not a machine," they said, adding that medical examinations cannot find out everything about the body and may find out too much.

One letter to The Times says "senior executives, like American business tycoons who are already much addicted to these examinations, probably fear such things as sudden occlusion of the coronary arteries and high blood pressure."

But no one can predict a coronary thrombosis, the letter writers say, "and if a middle aged man has high blood pressure it is surely much better that he know nothing about it."

Session Opening Shown On TV

EDMONTON— The opening of the 4th session of the 13th Alberta Legislature Thursday, marked a number of first for the television industry in the province.

For the first time, a network of five Alberta TV stations was set up for a live telecast. It will also marked the first time that live TV has originated from the legislature.

A number of technical difficulties had to be ironed out. Edmonton's CFRN-TV camera crews and engineers used a "zoom-lens" camera stationed in the Speaker's Gallery.

BY MICROWAVE

The signal was fed to the Alberta Government Telephones' microwave tower in Edmonton and the picture was beamed over the AGT microwave network in the province.

The sound commentary emanated from the Edmonton studios because no loud talking is permitted during legislature proceedings. The telecast started at 2:55 p.m. Thursday. The five Alberta TV stations are situated in Calgary, Edmonton, Lethbridge, Red Deer and Medicine Hat.

THE UNIVERSITY PROGRESSES WITH ALBERTA

The University of Alberta has seen tremendous growth since its establishment more than 50 years ago. The beginning curriculum was just two areas only, science and the liberal arts, taught at Edmonton. Today every type of professional school is found within its scope. From the initial opening in Edmonton the University of Alberta has extended to other parts of the province. A branch in Calgary, the School of Fine Arts in Banff and the junior college at Lethbridge are all extensions of the University of Alberta. The university, its operation and expansion is another government service maintained for the people of Alberta. Government grants have resulted in the construction of fine buildings for the establishment of a wider range of courses available to students.

UNIVERSITY PLANS FOR THE FUTURE

The University of Alberta continues to expand and grants from the Government of Alberta this year will assist in several large expansion and construction projects. These include a Physical Education Building, a six-storey addition to the Medical Building, a new building for Chemistry and one for Physics and Mathematics. The addition to the Medical Building will provide increased facilities for medicine, dentistry, pharmacy, nursing and physio-therapy. New university buildings are being planned on a 325 acre site in Calgary which was given to the university as a gift from the city.

PROVINCIAL GRANTS TO THE UNIVERSITY OF ALBERTA

Government of Alberta grants to the University of Alberta during the current fiscal year total $4,521,740. These grants cover the cost of operation of the university and the financing of university building projects.

University construction projects this year received a grant of $2,170,740 and an additional $200,000 for furnishings.

The operational grant was $2,225,000 which with an enrollment of slightly more than 5,000 pupils amounts to about $500 per pupil attending the University of Alberta.

BETTER BUSINESS BUREAU GETS 1450 CALLS ON COUPON BOOKS

(Continued from Page 2)

er almost every type of business and promotion.

To get back to the Edmonton Bureau, which was sponsored by the retail committee of the Edmonton Chamber of Commerce in the formative stages, it held its own first general meeting on Nov. 25, 1957 at which time the first executive was appointed, as per attached.

Its charter membership was 128 business firms, who subscribed to the principles of the Better Business Bureau. This incidentally is exactly the same number of firms in the City of Calgary who subscribed to that bureau. Since that time, 9 new applications have been received into membership, with an additional 10 applications awaiting the approval of the board of directors.

The sum subscribed to date represents only approximately one half of the tight budget which was set up and which it was estimated would be required to operate a bureau for a period of one year. The treasurer reports, unless additional new membership applications are forthcoming in numbers, the funds in the bank will last another three months of bureau operation.

Does the City of Edomnton want the bureau doors to close? officials ask.

Every business has employees and customers; these people are the public which the bureau serves day in and day out, and there is no charge whatsoever for the service performed.

Our middle name is BUSINESS and this is a business organization.

Our sole support is from business—from the corner gas station to the large industrial concern. We don't ask the public if their employer is a member of the bureau, but they are all treated the same.

The support of every business in Edmonton is needed to make Edmonton bureau the leading bureau in the west—it can be done. Calgary now has 640 members, Edmonton has always been able to better them so let's show our neighbors to the south how to do a job.

Spruce Valley

John Wolak made a trip to Edmonton last week to bring her mother, Mrs Stephania Wolak, back home. She had undergone surgery three weeks ago and is now on the road to recovery.

Nick Zilinski and Mike Homeniuk attended the municipal district meeting held at Meanook Feb. 15.

A few local residents attended the Ice Carnival at Grassland Feb. 14. Dut to the below zero weather, they returned home early, as it was too cold to watch the proceedings.

Visiting at the home of Mr. and Mrs. Karl Zilinski were Mrs. Zilinski's sister, Margaret and family of Edmonton.

Steve Zilinski was a visitor at the Nick Zilinski home last Sunday. Mrs Caroline Zilinski also returned home after spending some time at Legal.

Nick Bereziuk Sr. was recently discharged from an Edmonton hospital where he underwent surgery almost two months ago. He is now convalescing at the home of his daughter, Mr. and Mrs. Fred Ryl of Edmonton.

Former RCMP Sgt. Tory Candidate

EDMONTON (BUP)—Jack Bigg is the Progressive Conservative candidate in the federal riding of Athabasca.

The former sergeant in charge of the Westlock detachment of the Royal Canadian Mounted Police was chosen last week at a naming convention held at the Edmonton Jubilee Auditorium. More than 1100 persons, some travelling more than 175 miles, attended the meeting. Bigg obtained 390 votes on the first ballot. Other candidates were Stan Powers of St. Paul (329) and Alex Shore of Edmonton (35) who was Tory candidate last time.

Bigg is married with three daughters.

Athabasca was held by 79-year-old Joseph Dechene in the last parliament. He had held the riding for 18 years. Dechene will not be seeking re-nomination from the Liberal party.

The Socred candidate Archie McPhail, who trailed Dechene by a couple of hundred votes last June, is seeking his party's nomination again.

When you get behind with your work, it becomes difficult to imagine how you will get back on schedule.
